

Wireless Speaker System for iPod®

Get brilliant sound for your iPod from up to 100 feet away with the Octiv Air wireless home system. Put your music where you want it, on a wall, a table, anywhere at all, and control it using the Octiv Air remote. This advanced remote can even learn to control your CD player or other sound source. Two responsive, 4-inch woofers and 1-inch silk dome tweeters, along with a room-filling 80 watts of digital power, drive the Octiv Air's clear, powerful sound. Add another speaker to double the power and separate the left and right channels. Or you can "unwire" your music listening experience by adding up to seven optional wireless speakers throughout your home. Remote control and built-in FM tuner included.

octiv™ AIR

Transmitter dock connects with speaker wirelessly

(iPod not included)

Awesome Sound for Your iPod, Even If It's Nowhere in Sight

Best in Class Audio

Digital amplification delivers powerful, crystal-clear sound.

Powerful Bass

Proprietary DSP technology and custom drivers artfully combine to deliver a deep rich sound.

Wall-mountable

Brackets sold separately on www.alteclansing.com

Interference Free

2.4GHz digital transmission uses multiple channels to co-exist with other wireless devices.

Built-in FM Tuner

Transmitter dock streams your favorite station to the speaker.

Wireless Convenience

The transmitter dock sends your music to the speaker wirelessly, through walls, floors and ceilings up to 100 feet away.**

Universal Dock for iPod

Charges your iPod while you play.

Aux In jack

Connect MP3, Laptop, CD and DVD players or other audio devices to the handy AUX IN jack.

Remote

Control your iPod, FM radio, and speaker from where you're listening.
